1. WHAT IS THE FRONTIER ADVENTURE CHALLENGE?

Recognizing that the allure of adventure racing extends beyond those with the commitment to try a 24-36 hour race, Frontier introduced the Salomon Adventure Challenge Series in 2001. These 8-hour races treated participants to a fun introduction to authentic, wilderness adventure racing and left people with a thirst for more.

The Frontier Adventure Challenge Series event still features three disciplines: Mountain Biking, Trekking, and Paddling. Coed or open teams of three have up to 8 hours to complete the roughly 35km racecourse. The exact length of each discipline and the order teams undertake each remain a secret until race day.

On the Friday night and Saturday morning before the event, teams submit all completed paperwork and pass a gear check in advance of the Race Briefing. Once teams have completed registration, in advance of the Race Briefing they receive topographic maps and a course description featuring coordinates and course descriptions. At the Race Briefing, the course designer and race director will review the course, discuss any important logistics, and answer any questions any teams or volunteers may have.

At the word 'GO', teams will set off to reach each checkpoint in the order specified at the Competitor Briefing and within the 8 hour time limit. Following the race, there will be an Awards Celebration with a banquet and sponsored prizes and awards. At all Frontier AC events, we celebrate the achievement of teams and volunteers with a licensed party featuring music, and more random prizing! This is a great time to mix with other teams, volunteers, and race staff, and share your race experience.

Friday, Sept 5

Volunteer check-in begins at 14:00 Friday afternoon. Join us at Searchmont Resort Friday night for early registration and some social time. We'll have the tunes going and some race videos playing – everyone is welcome to join in and meet your fellow volunteers and the teams!

Teams will begin to arrive mid-afternoon for Competitor Registration which opens at 17:00 in the main lodge at Searchmont. All race events will take place in the lodge, or at the base of the ski hill for the race finish.

Upon registration, teams will receive a Competitor Kit which includes: 3 race jerseys; 3 bike plates (with zip ties); the Team Passport; 3 Dinner tickets; and some swag and other goodies. Race jerseys must be worn at all times to ensure we can identify each team – don't hesitate to remind teams that the big Frontier logo is on the front! Teams will spend most of the day getting their gear sorted out.

Raceday – Saturday, Sept 6

Competitor Registration: All remaining teams must check in with race officials in the main lodge at Searchmont, to complete all paperwork and receive their Competitor Kits.

Some key things to watch for as a volunteer:

- Racers must wear their jerseys at all times during the event (beginning at registration)
- Bike plates must be attached to the front of each bike
- Teams must have their passport with them for the duration of the race. If a team arrives at your checkpoint without one, make a note, and notify race staff immediately, but do not hold the team up. Race staff will address the situation with a replacement and potentially a time penalty.
- Gear Check will be done at registration, and can be completed before checking in with race officials. We only check for key safety items, but teams **MUST** demonstrate they have all requested items before receiving a Gear Check ticket. Please review the mandatory gear list for the items that will be checked at Gear Check. There will be gear checks throughout the course for critical safety items. If a team is without mandatory gear on the course, it must be reported to race staff, and they **WILL** be given time penalties, or stopped until critical safety gear can be replaced.

The Mandatory Gear List is available for download on the race page at www.fastadventures.ca.

Map Distribution & Competitor Briefing: Starting at 07:00, any one team member may pick up their team package in the main lodge, including the race maps and directions – but only if the team has completed all aspects of registration. (The racecourse is kept secret until this point!) Once teams have their maps and racecourse instructions, they will plot the checkpoints and plan their strategy for the race.

At 08:30, all teams must meet for the Competitor Briefing. This is when any unanswered questions are addressed, and the racecourse is reviewed. This will end at approximately 09:00, leaving each team until 10:00 to finish plotting the checkpoints, review the maps and instructions, and complete any final preparations. We suggest all volunteers attend the briefing to more fully understand the racecourse, and hear answers to any racer questions.

Race Start: If the race features a remote start, teams will be notified during registration, and again during race briefing, of the time to meet the buses. Teams will gather at the designated start area for a 10:00 mass start. At the word 'GO', the adventure begins. Teams must reach

each checkpoint (proof is a punched passport at each CP) in the order specified at the Competitor Briefing and within the 8 hour time limit to complete the racecourse. Teams will choose different paces – they may push for the win or just enjoy the authentic wilderness race experience.

During the race, the checkpoint staff record when each team reaches their area, race headquarters keeps a master tracking sheet to monitor the progress of each team in the race, and the medical crew are on standby in the unlikely case of an injury.

Race Officially Ends: Teams have until 18:00 (or 8 hours from race start) to complete the entire racecourse. Teams finishing within the 8-hour time limit and who have reached each checkpoint in order will be recorded in the final standings as a ranked team. If a team does not finish before the cut-off time or if they miss a checkpoint, we will still rank the team, but after those that have finished in time, or completed all checkpoints.

Dinner and Awards: Upon the completion of the race, there is an awards and dinner which are complimentary for volunteers, followed by a social event to give everyone a chance to celebrate their achievement, whether racing or volunteering.

The wrap up dinner is served at 17:00 and the prizes and special awards presentation begins shortly after 18:00 (once the racecourse is closed and all competitors are off the course).

Prizing: Teams and volunteers are recognized with prizing at the wrap up for performance, positive attitudes, great stories, and helping others on the racecourse. Come with some stories and nominations prepared to make it as fun as possible!

As well, the top team in each category wins a **50% discounted entry** to the Frontier Adventure Challenge Fall Classic and Champs on September 27.

4. RACECOURSE DESCRIPTION

September can be unpredictable in the Algoma region, but the weather should be dry, cool and crisp, and the autumn colors should be starting to paint the landscape.

The weather on race weekend, however, will determine much of your clothing choice. As volunteers, you may find yourself in any variety of roles, so it's best to come prepared for almost anything. Check the race website for a direct link to weather at Searchmont, and prepare accordingly.

If you're new to adventure racing, an interesting element of this sport is that the various disciplines (biking, trekking, paddling, etc) can be in any order and may be repeated depending on the course, which remains secret until the day of the event.

Feel free to download the competitor update for more details on what the course may be like.

Advanced vs. Regular Course

At a clearly identified transition area or checkpoint, the racecourse will split – regular course and advanced course. The advanced course is a set of additional CP's the team must reach. By adding this element to the event, we aim to cater to the increasingly competitive spirit of the Series while still offering the regular course to the majority of teams.

The deciding factor as to which course teams will do is the time that the team reaches this point. If they arrive before the cut-off time for the advanced course, they are welcome to take on either course (NOTE: They are NOT forced to take the advanced course if they arrive before the cut-off time). If they do arrive after the cutoff time the team must take the regular course to the finish line. Teams completing the advanced course automatically rank ahead of the regular course finishers.

Because this is a critical element of the race, there will always be a Race Official with any volunteers at this checkpoint to manage any timing issues or disputes.

5. WHAT IS MY ROLE?

First and foremost, it is important to communicate that you will be **FULLY** prepared for your role when you set out into the field. All volunteers will be briefed before heading out so that you are very clear as to what is expected of you. You will also receive a few documents to read over to give you an even better idea of how to do the job effectively and efficiently.

To begin with, **ALL AVAILABLE VOLUNTEERS** will assist with Competitor Registration to ensure that the teams are ready to go once the Race Briefing begins. This includes:

- Race paperwork coordination,
- Gear Checking,
- Distribution of competitor bags and,
- Miscellaneous set up tasks.

When you signed up to volunteer, you chose a few positions you would be interested in. The following will provide you with further insight as to what each position entails. During the Volunteer Briefing on Friday night, we will discuss the available roles and everyone's preferences, with the objective of making the weekend as efficient and rewarding as possible.

Checkpoint Staff: Checkpoints are specific locations on the course that all teams must pass through. The role consists of setting up the Checkpoint, recording each team arrival and departure times as well as their general condition and then radioing the information to headquarters. You will also be responsible for ensuring the Checkpoint site is left clean.

Transition Area Staff: TA's are major checkpoints where teams will change from one discipline to another (eg. trekking section to biking section) but otherwise act as normal check points. The TA staff will have to assist in loading mountain bikes or other gear onto transport vehicles, and often will need to perform specific gear checks with each team.

Basecamp Staff: Basecamp is at the finish line and serves as the command centre for the whole race. All team progress reports are relayed back to basecamp and entered into the master time spreadsheet and the spectator leader board. Teams must be tended to as they cross the finish line and equipment needs to be managed. Basecamp has plenty of action and is a good choice for those who are not as keen on being outdoors for a few hours.

Race Staff Assistants: Frontier's team of key race staff is comprised of experienced volunteers and Frontier staff that work year-round to make these events happen. During the event, they move all over the course and often have many different roles and functions. Race Staff Assistants are paired with one of these people for the duration of the event to help with driving, communications, tracking data, TA and CP setup and takedown, moving gear, signage, or people...they go everywhere and are involved in everything the race staff are doing.

Medical Team: Frontier has a great professional medical team. The AR Medics have years of experience and know what adventure racing is all about. Some medical staff assist in search and rescue situations while the majority monitor and assist teams as they pass through transition areas. Medical teams are positioned according to qualifications. If you have the minimal requirements of 1st Aid, CPR, or Wilderness 1st aid you can assist any of the qualified medics. If you are a qualified medic or above you will be in charge of caring for the competitors and assessing their condition as they come into transition areas.

Gear Truck: All competitor gear is transported around the racecourse by cube trucks. This is the most important job in terms of making the race seamless for each racer – their bike mysteriously shows up later in the race for them! Timing and organization is critical in this role, as are good driving skills and good care with competitor's gear. One of the benefits of being a gear truck driver is that you get to see many different sections of the course.

6. WHAT DO I NEED TO BRING?

Food: As you will likely be at a checkpoint or transition area at some point in the race, it is a good idea to bring food with you.

Gear List: The following is a *suggested* list of items to bring.

- Layered clothing for all weather conditions (cold/wet)
- Toque, Mittens/Gloves
- Comfortable and suitable hiking shoes
- Waterproof attire
- An accurate DIGITAL watch or timepiece of some sort
- Extra clothes to change into once the event is complete
- Plastic bags for keeping things dry and for garbage
- Drink and/or water
- Matches
- A small first aid kit
- Toilet paper
- Football, frisbees, folding chair, etc. (optional)

Because this event starts at 1000, we may need some volunteers to set up their CPs the night before, which will require camping at remote locations. We encourage anyone interested in this to bring fully-sufficient camping equipment for a little adventure!

Forms: These forms can be found at the end of this update and should be completed and faxed or scanned/mailed to Frontier in advance at 1.866.876.8470, or brought to the event:

- Volunteer Information
- Image Release Form
- Medical Form
- Waivers (Frontier and CARA)

Thanks again for your support and involvement as a volunteer – it can never be said often enough, but it's your energy and enthusiasm that makes these events so much fun for us and the racers. Thank you for joining us!

See you at Searchmont!

Q. Will I be out there alone, or with someone else?

A. Everyone will be working in teams of at least two people, sometimes up to 3 or 4, depending on how many volunteers we have. If you have requested to be with someone else, or with a group of people, we will do our best to put you together.

Q. Should I bring food?

A. Yes. Pack any food and drink you will need for your time at the race. Frontier only provides food at the awards.

A. All of the roads are accessible by any 'standard' car. You do not require 4WD or any other feature to reach any point on the racecourse that you'll be travelling to.

Q. Do I have to stick around after the race?

A. By no means – however, the awards, dinner, and party are a fun time and a chance for the competitors and Frontier to properly thank you. We would love for you to stay!
